EXAMINER'S AMENDMENT/COMMENT

Drawings

1. Figures 52-56 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1-23 is the claim 1 and claim 12 limitation that the light deflection member is movable in a plane in which it is disposed and it's movement is synchronized with the modulation and scanning of the light beam. The primary reason for allowance of claims 24-35 is the claim 24 limitation that the number of convergence points formed in the horizontal direction is larger than the number of deflections elements in the horizontal direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
